Christmas Decoration

This decoration is so easy and fun to create! Make a cute ornament, or layer it up and create your own rosette bow for the top of presents!

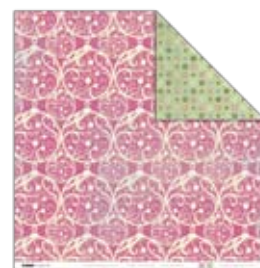

For the main bauble cut four strips 30.5cm (12") long and 2cm ($\frac{3}{4}$ ") wide. Punch a hole in the middle of each strip and then 0.5cm ($\frac{1}{4}$ ") in from each end. Layer each of the four pieces in a star shape and place a brad through the centre hole to hold them together. Leave aside for later.

To make the small 'pink flower' on the front of the bauble, cut four strips 15.25cm (6") long and 2cm ($\frac{3}{4}$ ") wide. Punch a hole in the middle of each strip and then 0.5cm ($\frac{1}{4}$ ") in from each end. Layer them in a star shape as above, but glue them in place rather than using a brad. Starting from the bottom layers bring all the ends together, adhering to form a bauble (as in Photo 2). Flatten the bauble down.

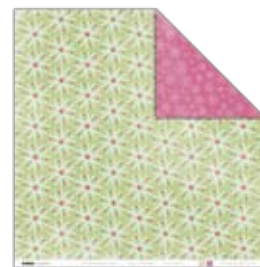

Choose a brad and prepare it for the next step by pushing a flower and the small flat bauble onto the brad.

Take your main bauble strips again and flip it over so the brad faces down. Similar to before, bring all the ends together, (see Photo 2) hold in place and insert your prepared brad to hold. Tie a piece of cotton or string to hang.

To make a present topper, make different sized baubles, flatten and layer on top of one another.
