[1] Take one group of pre-cut tissue paper (10 large or 14 small sheets of the same color), and fold accordion-style along the pre-scored lines. Fold a length of wire at a point about six inches from its end, and wrap around the center of the tissue paper bundle. Twist several times to secure.

[2] Fan out tissue paper by flattening out the folds. Starting on one side of the pom-pom, separate one sheet of tissue, and pull it up and toward the center. Repeat with remaining sheets until you have a full pom-pom.

[3] Twist remaining length of wire into a loop and use to hang.
